

SAIRNlaw

CONFIDENTIAL PARTNERSHIP PROPOSAL · PREPARED FOR COUNSEL · MAY 28, 2026

A Platform Worth More Than **Any** Retainer. Let Us Trade.

SAIRNlaw is a complete AI intelligence platform built for law firms — document review, contract drafting, case research, client intake, billing optimization, and compliance. I am proposing to license it to your firm in exchange for legal services. What I need costs your firm nothing extra. What you receive is worth far more than any retainer you would charge.

PROPOSED BY	Michael L. Dibert · Founder · SAIRN Technologies
PLATFORM	SAIRNlaw — 8-module AI intelligence for law firms
MARKET VALUE	\$199/month solo · \$149/attorney/month firm plan
WHAT I NEED	Patent filings · Delaware C-Corp · FERPA and HIPAA agreements · Trademark prosecution
WHAT YOU RECEIVE	Full SAIRNlaw platform · All 8 modules · All attorneys in your firm · Ongoing access

TERM	12 months access in exchange for agreed scope of legal services
------	---

THE PROPOSITION

You have a legal practice that needs technology. I have technology that needs a legal practice.

I am building SAIRN Technologies — a platform with 29 live products across 10 verticals, two provisional patents filed, trademarks pending, and a valuation of \$75M–\$120M pre-money. I need a patent attorney, a corporate attorney, and compliance counsel. That is significant legal work.

I also just built SAIRNlaw — an AI intelligence platform built specifically for law firms. It saves attorneys 6.2 hours of non-billable work per week. It drafts contracts, reviews documents, researches case law, optimizes billing narratives, and manages compliance. It is powered by Claude AI — the same AI that powers every SAIRN platform.

The proposal is simple. Your firm gets SAIRNlaw — full access, all 8 modules, every attorney — in exchange for the legal services I need. You get a platform your competitors do not have yet. I get the legal foundation my company needs to close its first enterprise contracts.

Your firm bills by the hour. SAIRNlaw saves 6.2 hours of non-billable work per attorney per week. For a 5-attorney firm, that is 31 hours a week converted from overhead to billable work. At \$300 per hour, that is \$9,300 per week in recovered revenue.

THE EXCHANGE

What I bring. What you receive.

A clean exchange of equal value

Neither party pays cash. Both parties receive something worth more than the alternative.

WHAT I RECEIVE — LEGAL SERVICES

- ⚖️ 3 new provisional patent filings — Student Career Intelligence, Student Wellbeing Intelligence, Learning Poverty Detection
- ⚖️ 1 provisional patent — Enterprise Token Pooling architecture
- ⚖️ Delaware C-Corp formation
- ⚖️ FERPA data processing agreement template for SAIRNlearn
- ⚖️ HIPAA Business Associate Agreement template
- ⚖️ SAIRN and FABRICOR trademark prosecution
- ⚖️ Enterprise contract template for Goodyear

WHAT YOU RECEIVE — SAIRNLA W PLATFORM

- ⚖️ Full SAIRNlaw platform — all 8 modules — all attorneys in your firm
- ⚖️ Document review — contracts, pleadings, discovery, due diligence
- ⚖️ Contract drafting — NDAs, service agreements, employment, real estate
- ⚖️ Case research intelligence — jurisdiction-aware legal analysis
- ⚖️ Client intake automation with conflict pre-screening
- ⚖️ Billing optimization and narrative drafting
- ⚖️ 12 months access — ongoing updates as

and Columbus City
Schools

platform grows

SAIRNLA W — WHAT YOUR FIRM GETS

8 modules. Every hour of non-billable work eliminated.

Document Review Intelligence

Review any contract, pleading, discovery document, or brief. Identify risk areas, summarize key clauses, and flag what needs attorney attention — in minutes instead of hours.

Contract Drafting Intelligence

Generate first drafts of NDAs, service agreements, employment contracts, LLC operating agreements, real estate documents, and settlements. Jurisdiction-appropriate and ready for attorney review.

Case Research Intelligence

Research any legal question by jurisdiction. Identify relevant precedents, statutes, and arguments. Anticipate opposing counsel positions. Develop appellate arguments.

Client Intake Intelligence

Practice-area specific intake questionnaires, conflict pre-screening, case viability assessment, intake summary generation, and engagement letter drafting.

Billing Optimization Intelligence

Draft detailed billing narratives from time entries. Identify underbilling patterns. Generate client-ready invoice summaries. Track matter budgets and overage alerts.

Compliance and Ethics Intelligence

CLE tracking and deadline management. Ethics rules by jurisdiction. Conflict monitoring across matters. Trust account compliance. Malpractice risk identification.

Client Communication Intelligence

Draft status updates, demand letters, cease and desist, settlement offers, court filing notices, and difficult conversation communications. Right tone, right moment, every time.

Court Filing and Procedure Intelligence

Motion drafting to local court rules. Filing deadline calculation. Caption and cover sheet generation. Service documentation. Ohio court rules and federal rules — built in.

THE VALUE CALCULATION

Why this exchange favors your firm.

What you receive	Market value	Your firm value
SAIRNlaw — 5 attorneys × 12 months	$\$149 \times 5 \times 12 = \$8,940$	First-mover advantage — no competitor has this yet
6.2 hours saved per attorney per week	$\$300/\text{hr} \times 6.2 \times 5 \times 52 = \$483,600/\text{yr}$ recovered	Non-billable time converted to billable work
Document review speed improvement	3-hour review reduced to 30 minutes	5x throughput on document-intensive matters
First-mover advantage	Zero competitors in Ohio law firms have this	Technology differentiator for client acquisition
Ongoing platform updates	SAIRNlaw grows as SAIRN grows	12 months of updates included
Total value to your firm	\$8,940 platform + \$483,600 recovered hours	Significantly exceeds standard retainer

Why this matters for your firm beyond the numbers

SAIRNlaw is not available to the public yet. Your firm would be among the first law firms in Ohio to deploy it. That means your attorneys work faster than any competing firm, your billing narratives are stronger, your contract drafts are cleaner, and your client intake is more thorough. Every engagement becomes more efficient. Every client gets a better work product. In a legal market where differentiation is everything, being the first firm with AI that actually works is a competitive advantage that lasts.

THE ASK

One conversation. No commitment required today.

What I am asking for today

A 20-minute demonstration of SAIRNlaw — live, in your office, on any legal matter your firm is currently working on. Ask it to review a contract, draft an NDA, or research a legal question. Evaluate it yourself. Then let us talk about what a fair exchange looks like.

Proposed scope of legal services — open for discussion

Legal service	Priority	Notes
3 new provisional patent filings	Urgent — 30 days	Student Career Intelligence, Wellbeing Intelligence, Learning Poverty Detection — no prior art worldwide
1 provisional patent — Enterprise Token Pooling	Urgent — 30 days	Required before Goodyear enterprise contract execution
Delaware C-Corp formation	Required immediately	Needed before any investor term sheet
FERPA data processing agreement	Required before Columbus City Schools	Template that covers all 610 Ohio districts
HIPAA Business Associate Agreement	Required before hospital contracts	Covers SAIRNhealth and SAIRNcare

Legal service	Priority	Notes
SAIRN + FABRICOR trademark prosecution	Ongoing	Both marks pending at USPTO
Enterprise contract templates	Before first enterprise close	Goodyear and Columbus City Schools deals in pipeline
In exchange	Full SAIRNIlaw access — all attorneys — 12 months — all 8 modules	

This is not a transaction. It is a partnership between two Columbus professionals who both benefit from each other's best work.
